Do you think the list of resources provided with the description of the task were accurate to perform the task?		Did you miss any kind of tool to consult the resources in a uniform way during the meta-model construction phase?		Do you think a tool to assist you during the meta-model construction phase would be useful?		Indicate which functionalities do you think this tool could have	
1	17:30	17:52	0:22	Y	"The example provided in the first page"	Y	"Maybe it is enough. I am not sure if I did the ecore right."	Y	"I reckon the list of resources are accurate."	N		Y	"It would be great an assistant to help with the swap issue."	"Class searching and model repositories." "Not only classes, but also packages. Abstractions about the real world, not about the solution." "If the tool has some kind of basic information or if it gives some suggestion when we have to connect class."	
2	17:32	18:12	0:40	Y	"I have consulted the ecore about Banks"	Y		Y		Y	"I would have liked a tool to look for another MM."	Y			
3	17:35	18:24	0:49	N	"Not enough time. I was focused on the problem, not minor details."	Y				Y		Y			
4	17:50	18:26	0:36	Y		N	"Information provided was difficult to understand due to it's a not knowledge area for me"	N	"I think that to perform this task requires basic information to understand concepts about the task"	N		Y			
5	17:50	18:21	0:31	Y	"Not so much"	Y	"Yes, they are enough."	N	"I needed an explanation about the task more detailed. I didn't understand the task."	Y		Y

7	17:31	17:55	0:24	N	"For the time slot I had, it was better only the description of the task"		N/A		N/A	Y	"Yes, to organize the info"	Y	"Yes, all the help is welcome."		"Autofill of attributes and integration for editing the classes and attributes."
8	17:32	18:12	0:40	Y	"Slightly bank.ecore to have an idea of how to start."		"Not thoroughly consulted. Just to have an idea."		"Not thoroughly consulted. Just to have an idea."	Y	"Despite not looking the resources too much, the bigger the number of resources there is, the harder it is to group the information and join the classes."	Y	"Help is always useful"		"Grouping the information and classes to have an easy guide of what to create."
9	17:35	18:25	0:50	N	"So verbose"	N	"I don't know"	Y	"The task is well described."	N		Y			"Ease to understand the domain."
10	17:34	18:09	0:35	N	"Too much information for the time we have. I spend a lot of time to find what I want."	Y	"It is enough, but I think it takes a long time to find what I want"	Y		Y	"Something to filter the information."	Y
